## Helpful Hints and Tips:

- A Portrait – is a photograph of a person who is posing for the camera.
- Animal Photograph – The pet should fill as much of the picture frame as possible. Check your background for anything that will distract the viewer (and the judge) away from your subject.
- Landscape or Seascape – the scene that attracted you has to dominate the picture in order to interest others. Exclude all distractions. If photographing the horizon in a seascape, make sure it is level.
- Sunrise or Sunset – Pointing a camera at the sky to photograph means that everything else on the ground will be a dark shadow. Minimize the dark area as much as possible but include interesting silhouettes that will add to the interest of the picture.
- Open Subject – This Class is for any subject not covered by the rest of the program. All Entries will be judged on impact as they have to compete against different subject matters.
- Artistic – Photographs may be digitally enhanced for this Class using a computer program. Artistic creativity, imagination and impact are important for this Class.
- Selfie Photo - Same rules apply as per portrait photo of family scene. Making sure your subject or subjects are in focus and within the picture.

## Points that will penalize your Photograph:

- Size Requirements: Ensure your photograph is the correct size for the Class you are entering. Too big or too small will be penalized, even if it is a better photograph
- Tilted horizons
- Out of focus or blurred
- Cluttered or messy backgrounds distracting from the subject
- Writing or date on the front of photographs
- Not displayed properly on stiff card
- Make sure the photograph is in the correct class
- Part of the subject chopped off (feet, arm, head)
- Subject not filling the frame (especially portraits)
